

Workshop Name:

Hazard Vulnerability Assessment Workshop

Workshop Overview:

One of the key components in determining a facility's probability and risk for emergencies and disasters is to conduct a formal Hazard Vulnerability Assessment (HVA). The HVA is an important component of the Facility's Emergency Operations Plan and helps establish priorities for writing, testing, evaluating and revising their plan. This workshop provides the participant with information and hands-on experience to understand the value of the HVA and how to conduct a thorough HVA with their emergency planning team.

Recommended Participants:

Nursing Home Administrators, Director of Nursing, Facility Managers, Emergency or Safety Planning Team Members, Nurses and Social Workers.

Course Length:

2.5 Hours

Prerequisites:

None

Continuing Education Credits

Target audience: Registered Nurses, Nursing Home Administrator and Licensed Social Workers/Licensed Clinical Social Workers

This activity has been submitted to WNA CEAP for approval to award contact hours. Wisconsin Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Course Objectives:

Objectives:

1. Review the importance and purpose of conducting an annual HVA.
2. Identify the types of risks and hazards faced by healthcare facilities.
3. Develop a consensus methodology to work through and score the HVA for possible use at your facility.

Purpose:

To provide the participant with an understanding of the value and implementation of the Hazard Vulnerability Assessment.

Course Agenda:

- Welcome, Refreshments and Networking- 10:00 min
- Introductions-10:00 min
- Facility Logistics and Safety-5:00 min
- Course Overview and Objectives-5:00 min
- Interactive Workshop with Working Lunch (optional depending on time slot selected) 90:00 min
- Workshop Hot Wash/Participant Feedback- 20:00 min
- The Next Steps and Other Training Opportunities-5:00 min
- Workshop Evaluations -5:00 min
